

In the Claims

1
2
3 1. **(Currently Amended)** A method for delivering a stored message to
4 a satellite radio receiver, the method comprising:

5 receiving a password protected request from a subscriber via a
6 wireless communication device associated with a first subscription service
7 to retrieve the subscriber's personal message;

8 ~~receiving~~ retrieving the message from a second subscription service;

9 encoding the message for satellite transmission; and

10 transmitting the message to a satellite via the second subscription
11 service for delivery to the satellite radio receiver, wherein the satellite radio
12 receiver decodes the message.

13
14 2. **(Currently Amended)** The method of claim 1, wherein ~~receiving~~
15 ~~the request includes receiving the request via a wireless communication~~
16 ~~device~~ the satellite radio receiver is selected from the group of satellite
17 radio receivers consisting of a subscription satellite music receiver and a
18 subscription satellite television set top box.

19
20 3. **(Currently Amended)** The method of claim 2 1, wherein receiving
21 the request from a subscriber via the wireless communication device
22 includes receiving the request via a wireless telephone.
23
24
25

1 4. **(Currently Amended)** The method of claim 2 1, wherein receiving
2 the request from a subscriber via the wireless communication device
3 includes receiving the request via a wireless pager.

4
5 5. **(Currently Amended)** The method of claim 2 1, wherein receiving
6 the request from the subscriber via the wireless communication device
7 includes receiving the request via a wireless personal digital assistant.

8
9 6. **(Currently Amended)** The method of claim 1, wherein receiving
10 the request includes receiving identification information associated with a
11 the subscriber.

12
13 7. **(Original)** The method of claim 1, wherein receiving the request
14 includes receiving a password associated with the subscriber.

15
16 8. **(Canceled)**

17
18 9. **(Currently Amended)** The method of claim 8 1, wherein retrieving
19 the message from the message server includes retrieving a text message.

20
21 10. **(Currently Amended)** The method of claim 9, wherein retrieving
22 the text message includes retrieving ~~an~~ electronic mail message.
23
24
25

1 11. **(Currently Amended)** The method of claim 9, wherein retrieving
2 the text message includes retrieving an electronic fax message.

3
4 12. **(Currently Amended)** The method of claim 8, wherein retrieving
5 the message from the message server includes retrieving a voice message.

6
7 13. **(Currently Amended)** The method of claim 1, wherein encoding
8 the message for satellite transmission includes converting the message to a
9 voice message.

10
11 14. **(Currently Amended)** The method of claim 1, wherein encoding
12 the message for satellite transmission includes digitizing the message.

13
14 15. **(Currently Amended)** The method of claim 1, wherein
15 transmitting the message via an RF transmitter to the satellite for delivery
16 to the satellite radio receiver includes uplinking the message to a satellite.

17
18 16. **(Currently Amended)** The method of claim 1, further comprising:
19 receiving the message from the satellite at the satellite radio receiver;
20 decoding the message; and
21 presenting the message in audio form.

22
23 17. **(Currently Amended)** A computer program stored on a computer
24 readable medium, the computer program comprising instructions to:
25

1 receive a password protected request from a subscriber via a wireless
2 communication device associated with a first subscription service to
3 retrieve the subscriber's personal message;

4 retrieve a the message stored for a subscriber from a message server
5 via a second subscription service; and

6 encode the message via the server for satellite transmission.

7
8 18. **(Currently Amended)** The computer program of claim 17, further
9 comprising instructions to convert the message to an audio message via the
10 server.

11
12 19. **(Currently Amended)** The computer program of claim 17, further
13 comprising instructions to digitize the message via the server.

14
15 20. **(Currently Amended)** A system for delivering a stored message to
16 a satellite radio receiver, the system comprising:

17 means for receiving a password protected request from a subscriber
18 via a wireless communication device associated with a first subscription
19 service to retrieve the subscriber's personal message;

20 means for ~~receiving~~ retrieving the message from a message server of
21 a second subscription service;

22 means for encoding the message via a server for satellite
23 transmission; and

1 means for transmitting the message to the satellite via the second
2 subscription service for delivery to the satellite radio receiver, wherein the
3 satellite radio receiver decodes the message.
